

MAHER BEN AICHA

Software Engineering Student | Artificial Intelligence & Computer Vision

Tunis, Tunisia | +216-94-916-106 | maher.benaicha@etudiant-enit.utm.tn | LinkedIn | GitHub | Portfolio

PROFILE

Third-year Software Engineering student at the National Engineering School of Tunis (ENIT), with a strong interest in Artificial Intelligence, Computer Vision, Machine Learning, and Full-Stack Development. Experienced in developing end-to-end applications combining AI models, REST APIs, databases, and modern web technologies. Seeking a PFE/internship opportunity abroad in Software Engineering or Artificial Intelligence.

EDUCATION

National Engineering School of Tunis (ENIT) — Tunis, Tunisia

B.Eng. in Software Engineering | September 2024 – Present

Preparatory Institute for Engineering Studies of Nabeul (IPEIN) — Nabeul, Tunisia

Preparatory Cycle for Engineering Studies – Mathematics & Physics (MP) | September 2021 – July 2023 | High Honors — Rank: MP 387

PROFESSIONAL EXPERIENCE

Délice Danone — Tunisia

Software Engineering Intern | StageDélice Recruitment Platform | 2025–2026

Designed and developed a full-stack technical recruitment platform using React, Node.js/Express, and SQL Server. Implemented MCQ test management, timed candidate assessments with automatic grading, results dashboards with Excel/PDF export, and AI-powered question generation using Llama 3.3 70B through the Groq API. Developed the Talent AI module for automated CV analysis, candidate compatibility scoring, candidate ranking, and an HR assistant chatbot.

Technologies: React · Node.js · Express · SQL Server · JavaScript · JWT · REST API · Groq API · Llama 3.3 · Docker

Safran Electrical & Power — Soliman, Tunisia

Software Engineering Intern | June – July 2025

Contributed to an automated email notification microservice within the digitalization team. Developed REST APIs with Java 8 and Spring Boot 2.7, implemented scheduled notification processing with Spring @Scheduled, and integrated SQL Server for notification templates and history. Contributed to an Angular/TypeScript frontend for template management and notification history.

Technologies: Java · Spring Boot · Maven · SQL Server · Angular · TypeScript · REST API · Postman

SELECTED PROJECTS

OilScan — Oil Spill Detection from SAR Satellite Imagery

ENIT | 2025–2026

Developed an end-to-end computer vision pipeline for maritime oil spill detection using Sentinel-1 SAR imagery. Preprocessed and calibrated satellite images, fine-tuned YOLOv8 on 1,000 annotated SAR images, and developed a FastAPI web GIS interface for geo-referenced spill visualization.

Technologies: Python · YOLOv8 · OpenCV · NumPy · Sentinel-1 · GeoTIFF · FastAPI · Leaflet.js · Copernicus API · Roboflow

Tunisian Sign Language to Text Translation

ENIT | 2025–2026

Designed and developed a mobile application for bidirectional translation between Tunisian Sign Language and text. Combined OpenCV and MediaPipe for hand/body keypoint detection and gesture tracking with CNN and LSTM models for temporal gesture classification.

Technologies: Python · OpenCV · MediaPipe · CNN · LSTM · Deep Learning

Intelligent LLM-Based Chatbot

ENIT | 2024–2025

Developed an intelligent conversational application powered by DistilGPT-2, covering model fine-tuning, REST API integration, and persistent conversation management. Connected the system to MySQL, containerized it with Docker, and deployed it to a cloud environment for evaluation.

Technologies: Python · Hugging Face Transformers · DistilGPT-2 · Docker · MySQL · REST API

TECHNICAL SKILLS

Programming: Python · Java · JavaScript · TypeScript · SQL

Artificial Intelligence: Machine Learning · Deep Learning · Computer Vision · NLP · LLMs · LLM Fine-Tuning · Prompt Engineering

Frameworks & Libraries: React · Node.js · Express · Spring Boot · Angular · FastAPI · OpenCV · MediaPipe · YOLOv8

Databases: SQL Server · MySQL · MongoDB

Tools & Technologies: Git · GitHub · Docker · REST APIs · Postman · Linux

Geospatial & Data: Sentinel-1 · GeoTIFF · Copernicus API · Leaflet.js · NumPy

SOFT SKILLS

Problem Solving · Critical Thinking · Analytical Thinking · Teamwork · Adaptability · Communication · Autonomy

CERTIFICATIONS

CCNA: Introduction to Networks — Cisco Networking Academy | 2026

AI Fundamentals — IBM SkillsBuild | 2026

EXTRACURRICULAR ACTIVITIES

Member — G2FOSS ENIT, Software Club | 2024 - Present

Participating in technical workshops, software development activities, and collaborative projects.

Participant — Injaz El Arab Competition | 2025

Participated in a sustainability-focused project developing thermal insulation panels from natural materials, strengthening teamwork, project management, problem-solving, and sustainable innovation.
